Must the Greatest State Have the Worst Government?

Cast Your Vote For Seabury

It is not strange that the professional politician dares to waste public money and outrage public sentiment because, year after year, we prove to him that we vote like sheep and follow our party bell-wether no matter where he leads.

There is a point, however, at which partisanship ceases.

It takes a long time to arouse the average voter, but when he realizes that the politicians have gone too far he brushes aside party emblems and asserts himself.

The politicians have gone too far in the State of New York

They are trying to re-elect as Governor the man who wastefully increased the cost of our state government \$15,000,000 a year, who concealed from the public the amount of state money he squandered on a junket, who installed a "secret staircase" to the governor's office and signed plans to dump sewage in the drinking water of five million people.

For our own sake, and the sake of the state, we must resent the effrontery of this attempt. But how?

The only way to rebuke Gov. Whitman and the politicians around him is to elect Samuel Seabury.

Justice Seabury is able, straightforward and progressive. He is the type of man for whom any good citizen may confidently vote.

He has shown that he is free from sinister influences, political or personal. And he has promised to lift our State Government from the level to which it has sunk under Gov. Whitman.

Here are Justice Seabury's promises:

"I shall conduct the public business in the open. Back stairs government in the interest of those who seek something for nothing shall cease.'

"I shall see to it that vouchers for state money expended by public officials for alleged public purposes shall be open to public inspection."

"I shall stand firmly against fads and so-called panaceas which are often merely excuses for extravagance.'

"If elected I shall restore responsible popular government at Albany."

Smash the politicians!

Give Justice Seabury the chance to make good his promise of better things!

For more than a year the embassy here has been in charge of subordinate officials. Austrin has been the only one of the more important European belligerents not represented by a diplomat of high rank.

Dr. Dumba served here from May 24, 1913, until September, 1915. In the summer of 1915 he made himself unacceptable to the United States government, when he attempted to transmit through James F. J. Archbald, an American newspaper correspondent, a report to the Austro-Hungarian Foreign Office which disclosed the Ambassador's participation in plans to bassador's participation in plans to cripple American munition plants by strikes. You have already been generous, you have already done more than your share-we know it; and for that reason we beg to apologize for appealing to

Circumstances force us to it, however; the latest reports from Poland have been of such a nature that unless we obtain more assistance from you the whole Polish nation will be wiped out of existence. Over twenty thousand five hundred villages have been levelled to the ground. More than two hundred towns have completely disappeared. Sixteen hundred churches are in ruin. Loss in property destroyed over eleven billion dollars.

More than five hundred thousand young girls of Poland have had their lives shattered by the greatest tragedy that can come to a woman.

Victims of the conquering and the retiring armies that have incessantly swept over Poland since the beginning of the war, these unfortunate young mothers, whose babies have died for want of food, clothing and shelter, find themselves outcasts-helpless, alone, having known of maternity nothing but the sorrows.

Fourteen million Poles, including all the children under seven years of age, have actually been wiped out of existence.

A prominent American, who has just returned from Poland, where he had been investigating conditions on behalf of a well known American war re-, lief organization, reports as follows:-

"HAVING HAD OCCASION TO TRAVEL ON THE MAIN ROAD FROM WARSAW TO PINSK, ABOUT ONE HUNDRED AND FIFTY MILES LONG, I NOTICED THAT THE GROUND WAS SIMPLY LITTERED WITH CIVILIAN GARMENTS AND CRADLES. FOUR HUNDRED THOUSAND

in transmitting money.

N. B.-Money reaches Poland without delay-via Switzer-

land. The embargo concerns only foodstuffs and raw mate-

rials. Please write us for circular explaining methods employed

It has been your glorious share in these times of HUMAN BEINGS MUST HAVE DROPPED DEAD war to bring relief to those of the European sufferers ALONG THAT ROAD. THE RETREATING ARMY HAD BURNED THEIR HOMES AND COMPELLED THEM TO EVACUATE THE LAND. THERE HAD BEEN NO TIME TO BURY THOSE WHO FELL. THE BIRDS OF PREY, AS WELL AS THE WILD ANIMALS, HAD CLEANED THE BONES, AND THE INVADER, AFTER GATHERING THESE BONES AND GRINDING THEM, HAD USED THEM FOR FERTILIZING THE FIELDS IN HIS OWN HOME LAND."

> And now winter is coming again with all its horrors. It will bring untold misery to the homeless, shelterless, foodless Polish sufferers.

> Thousands more must die. They are doomed. Help cannot reach them in time. However, out of a population of thirty-four million Poles still quite a number remain whom you can help us to save, for food can still be obtained in Poland, but only at extremely high prices.

If your mother or sister or any being dear to you could be saved at no matter what cost, would the expense stand in the way of your saving their lives? And are these unfortunate children and women of Poland not your brothers and sisters in Christ?

Only a great wave of mankind's pity can surmount so immense a wave of human misery. Only a great, enlightened and generous nation can help effectually to save the perishing Polish people. Poland is far, far away-but need it be far away from your heart?
